NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

(in Canadian dollars)

1. STATUTE OF INCORPORATION, NATURE OF ACTIVITIES AND GOING CONCERN

Arianne Phosphate Inc. ("the Company"), was incorporated under Part IA of the Companies Act (Quebec) and was continued under the Quebec Business Corporations Act (Quebec) (QBCA). The Company is engaged in the acquisition and exploration of mining properties in Quebec, Canada. During 2013, the Company completed a feasibility study on its Lac à Paul property. The Company's objective is to focus on developing a phosphate mine by concentrating its resources on this property. The Company's shares are listed on the TSX Venture Exchange (symbol DAN), on the Frankfurt exchange (symbol JE9N) and on the US Stock Exchange Over-the-Counter (OTC) (symbol DRRSF). The registered office of the Company is located at 393 Racine Street, Suite 200, Chicoutimi, Quebec, Canada G7H 1T2.

Although management has taken steps to verify titles of mining properties in which the Company has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to unregistered prior agreements and non-compliant with regulatory requirements.

These condensed consolidated interim financial statements have been prepared on the basis of accounting principles applicable to a going concern, which contemplates the realization of assets and settlement of liabilities in the normal course of business as they come due. In assessing whether the going concern assumption is appropriate, management takes into account all available information about the future, which is at least, but not limited to, 12 months from the end of the reporting period. For the period ended March 31, 2016, the Company recorded a net loss of \$849,935 (2015 – \$ 891,200) and has an accumulated deficit of \$40,188,802 as at March 31, 2016 (2015 – \$39,338,867 as at December 31, 2015). In addition to ongoing working capital requirements, the Company must secure sufficient funding to meet its obligations and pay general and administration costs.

As at March 31, 2016, the Company had a positive working capital of \$87,357 (negative working capital of \$288,027 as at December 31, 2015), and has an undrawn non-revolving credit line of \$2,086,887. Management estimates that the working capital will not be sufficient to meet the Company's obligations and budgeted expenditures through March 31, 2017. These circumstances lend significant doubt as to the ability of the Company to meet its obligations as they come due and, accordingly, the appropriateness of the use of accounting principles applicable to a going concern. The Company will need to secure financing in 2016.

Any funding shortfall may be met in the future in a number of ways including, but not limited to, the issuance of new equity, debt financing or securing capital from potential partners. While management has been successful in securing financing in the past, there can be no assurance that it will be able to do so in the future or that these sources of funding or initiatives will be available to the Company or that they will be available on terms which are acceptable to the Company. If management is unable to obtain new funding, the Company may be unable to continue its operations, and amounts realized for assets might be less than amounts reflected in the condensed consolidated interim financial statements.

These condensed consolidated interim financial statements do not reflect the adjustments to the carrying values of assets and liabilities, expenses and financial position classifications that would be necessary if the going concern assumption was not appropriate. These adjustments could be material.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

These condensed consolidated interim financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") applicable to the preparation of interim financial statements, including IAS 34, Interim Financial Reporting, as issued by the International Accounting Standards Board ("IASB").

The accounting policies followed in these condensed consolidated interim financial statements are consistent with those applied in the Company's annual financial statements for the year ended December 31, 2015. These condensed consolidated interim financial statements should be read in conjunction with the Company annual financial statements for the year ended December 31, 2015 which have been prepared in accordance with IFRS as issued by the IASB.

The Board of Directors approved these condensed consolidated interim financial statements on May 20, 2016.

In August 2012 and July 2013, the Company entered into an agreement to obtain a non-revolving credit line, with Mercury Financing Corp. (the "Lender"), for an authorized amount of respectively \$10 million and \$2.5 million to finance a feasibility study for the Lac à Paul property and to cover the general and administrative expenditures related to this property. Terms and conditions are essentially the same.
